

# HOME OF MINISTER "SHOT UP" IN LOUISA

Residence of Rev. J. R. Glenn  
Fired On—Four Men  
Arrested.

**FOLLOWS FARKING EPIISODE**  
Attack Is Connected With Assault on  
Herbert Buckley, Who Now Held  
in Prison in Shooting—Held  
Probe in Progress.

Excitement is said to be running high, and much bitter talk is being indulged in in Louisa County as the result of the actions of one of two men who were in applying a coat of tar and feathers to a man, said to be a member of the opposing faction, and the alleged retaliatory action of the other, in an apparent attempt on the life and the destruction of the property of a minister, who, some say, had been the victim of an attempt on his life in the past.

Thursday night a party of men visited the home of Herbert Buckley, at that time, a minister, and took him to the woods, where they applied a coat of tar and feathers. Prior to this, he was given a beating.

House Is Shot Up.  
Another party, believed to be friends of Buckley, on the succeeding night paid a visit to the home of Rev. J. R. Glenn, and fired several shots from shotguns into the house, several narrowly missing the minister. In the party, according to Mr. Glenn, were the men and two negroes. The blacks, who were directed to a mine known as the Donald mine, Mr. Glenn went to the door in his shirt and trousers, and was standing on the back porch when, he says, two men fired on him from ambush. No shot hit him, but the heads struck the door and the spot where he was standing. He ran into the house and was fired on three times through a side window. He went upstairs and procured a rifle, but when he returned the attackers had retired.

Said to Have Identified Men.  
Mr. Glenn is said to have positively identified the three men who fired on him, and C. E. Via, Buckley is in jail, with two negroes, William Hughes and Jim Vest, both of whom, Mr. Glenn believes, he will be able to identify as the negroes who came to his door and sought directions to the Donald mine. Via is out on \$2,000 bail, with a preliminary hearing set for next Tuesday. Community wealth's Attorney W. C. Bibb, of Louisa County, who is conducting the investigation, is of the opinion that more than the four men arrested were implicated in the attack on Mr. Glenn, and efforts are being made to round up others believed to have been involved.

Earlier the same evening a party composed of three white men drove up to Mr. Glenn's house in an automobile and were said to have talked to the minister in threatening tones. They are said to have been under the influence of whisky. Buckley is said to have taken the party with the party shortly afterwards.

Citizens Are Incensed.  
The citizens of Louisa are said to be incensed at the treatment accorded Mr. Glenn, who is said to be highly respected in the community, and they are said to declare their determination to do everything in their power to bring the guilty parties to justice.

On the other hand, friends of Buckley, who is employed by H. H. Walton, Louisa County supervisor, and who conducts a store and has large lumber interests in Pendleton, are bitter over his arrest, declaring that the action first should have been taken by the authorities against those who took part in the tar-and-feather episode.

Early peaches are now ripening, and some apples have appeared on the market.

"It was just three weeks after I started taking Tanlac that my troubles ended," said F. L. Cumbie, 11 Brook Street, Lynchburg, Va., carpenter and former service man. "My health began to fall in France and even after I was discharged I continued to get worse. My whole system seemed affected, especially my stomach and nerves. I had awful indigestion and it looked like every bite I ate caused gas on my stomach and terrible pains in my chest and around my heart. I was so nervous I shook all over and slept so poorly that I could hardly muster strength to get out of bed. I wasn't able to work regularly and was about ready to give up."

"I never saw the like of the way Tanlac put me back in fine shape. I eat three big meals a day now, work every day and call myself a good man as I ever was. I can heartily recommend Tanlac to anybody."

# YOUNG WOMAN ROBBED AND SLAIN IN WARWICK

Miss Rose Brady, Employed  
at Camp Eustis, Murdered  
on Way Home.

**REFUSED OFFER OF ESCORT**  
Tempted by Bright Moonlight, She  
Declined Company for Walk, Falling  
Victim of Assassins, Who Beat  
Her to Death.

[Special to The Times-Dispatch.]  
NEWPORT NEWS, June 12.—Civil and army authorities are scouring Warwick County in an effort to find the slayer or slayers of Miss Rose Brady, whose mutilated body, partially stripped of its clothing, was found late Saturday night near Camp Eustis.

Miss Brady was sister-in-law of Sergeant Charles, located at the camp. She was employed at Eustis, and when the hour of her usual return from work passed search was made through the camp for her. The body was found near a small clump of woods. Its condition indicated that a struggle had taken place. Orders were issued immediately on finding the body that the camp be closed, no one being allowed to leave.

The order remained in effect through Sunday and today. She is thought to have left for her home on the camp with money on her person. Police, however, are following two clues, that of robbery and attack. Miss Brady's home was in New York.

**Refused Offer of Escort.**  
Miss Brady left the home of Captain George L. Smith Saturday night. Captain Smith had been accompanying her through the stretch of woods each night when she had finished her work. On Saturday she told Captain Smith that she preferred to walk alone, not desiring to put the officer to too much trouble.

She insisted also, on account of the bright moonlight, which prevailed, and which she could make the trip to her home without difficulty.

**Lead Pipe Is Found.**  
The lead pipe found near the body of the woman was identified this morning by a plumber, who stated that he left it on the ground at the hostess house when he completed some work on Saturday. The body was found near a stretch of woods about a quarter of a mile from the hostess house. It is thought that the slayer brought the lead pipe from the place where it had been left, and which the woman is thought to have seen in the light of the hostess house.

Miss Brady is said to have left with some of money on her person. No money was found on the body.

# ESTABLISH TWO MORE SCHOLARSHIPS AT W. & M.

Society of Daughters of the  
Cincinnati Sends \$4,000  
Check.

[Special to The Times-Dispatch.]  
WILLIAMSBURG, VA., June 12.—Establishment of two more scholarships at the College of William and Mary, in honor of great Virginians who have been connected with the institution, was announced today by President J. A. C. Chandler.

The Society of Daughters of the Cincinnati, Inc., the donor of the scholarships, one of which will be known as the Thomas Jefferson scholarship, and the other as the George Washington scholarship. A check for \$4,000 for the endowment of the two scholarships was received by Dr. Chandler today from Miss Ruth Lawrence, of New York City, president of the Daughters of the Cincinnati.

Both the Thomas Jefferson and the George Washington scholarships will be open to daughters of officers of the United States Army and Navy. The Daughters of the Cincinnati will nominate candidates for the scholarships. Should they fail to do so the faculty of the college is empowered to assign the scholarship in either case to any properly qualified daughter of a regular officer of the army or navy. Each scholarship will exempt the holder from the payment of tuition and college fees. The conditions of awards for the scholarships are similar to those governing the two scholarships established at Columbia University by the society.

Decision to establish these scholarships at William and Mary was made by the Daughters of the Cincinnati at their recent annual meeting, at the suggestion of Miss Lawrence. Miss Lawrence was one of the guests of honor at the college on October 15, last, on the occasion of the visit of President Harding and Mrs. Harding to William and Mary to attend the installation of Dr. J. A. C. Chandler as president of the South's oldest college.

Cincinnati, Ohio.—"I suffered for a year with nervous troubles and irregularities in my ovaries. Before I took Lydia E. Pinkham's Vegetable Compound, my back pained all the time and I was unfit for housework. I was worn out if I cooked a meal, and was unable to do my housework. My friends and my sister told me if I would take your Vegetable Compound and Liver Pills I would be relieved. After taking the first bottle I felt better, and neglected it awhile, but found I could not do my work until I was stronger. So I took the Vegetable Compound again and now I am the mother of a 19 months old boy. He is fat and healthy and I am sure I could never have carried him if I had not been for your medicine. I recommend your medicine to all women although I am young to be advising some one older."

**PROFFITT GIVEN LIFE TERM FOR MURDER**  
[Special to The Times-Dispatch.]  
CHARLOTTESVILLE, VA., June 12.—In the Circuit Court here the jury in the case of James Proffitt, indicted for the murder of George Garrison on March 5 last, at Proffitt's farm near Keswick, returned a verdict of murder in the first degree and fixed his punishment at imprisonment for life in the State penitentiary. It was the first instance in which the life sentence has been given by a jury here since that

penalty was added in the punishment of murder in Virginia.

The killing of Garrison was supposed to have been occasioned by a dispute over a visit by the slain man to the Proffitt home, between Keswick and Campbell, after Garrison had been warned never to come there again. The deceased was accompanied by D. K. Johnson when the shooting occurred. Johnson having invited Garrison to ride over to the Proffitt home with him, he started to do so, but as he turned Proffitt shot him in the neck, which caused him to fall from his horse. Proffitt then shot at him again, and two bullets pierced his breast, either of which would have caused death.
